

iGoogle

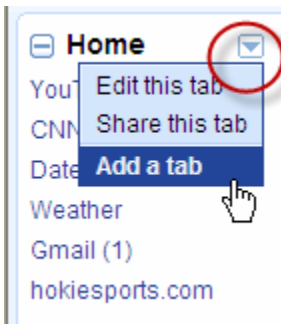

<http://www.google.com/ig>

When you first log into your iGoogle page, you will see this window:

- Select any of these that are of interest to you. You can always change them later.
- Click **See your page**.

Tabs

On the left side, you will see a Home tab which lists the components of your iGoogle home page. You can add other pages by clicking the **Add a tab** button.

This might be useful if you'd like one page devoted to general information, one devoted to your hobbies, etc.

Themes

Personalize your page by changing the theme

If you have more than one tab, each tab can have its own theme.

Some of the themes actually change based on the time of day or the weather forecast.

Gadgets

This is the fun part!

- Click on the **Add Stuff** link and start browsing
- You can either click the categories at the left or search.
- Click the **Add It Now** button when you find a gadget you like.
- Drag and drop gadgets around on your page to arrange as desired.
- Edit by clicking on the triangle in the top right corner of each gadget.

Adding an RSS feed:

- Click on the **Add feed** or gadget link.
- Type or paste in the name of any blog, wiki, or webpage that has an RSS feed. Look for the RSS symbol. 
- Try typing in the ITRT blog feeds:
